

## **Bellevue Obstetrical and Gynecological Society**

*It is my absolute pleasure to give the Bellevue Obstetrical and Gynecological Society Distinguished Service Award for unwavering dedication and service at Bellevue Hospital and within the NYU department of Obstetrics and Gynecology. Dedicated over 40 years of compassionate maternal fetal care, this recipient has taught the residents meticulous surgical skills, as well as compassionate clinical care.*

*He practices and teaches communal spirit of integrity, excellence, respect and teamwork in the medical profession.*

*He is a member of the New York State Department of Health task force on maternal mortality and disparate racial outcomes as well as the states maternal mortality review board. His presentation at grand Rounds was exceptional and gave us a taste of his experience at NYU.*

*And, on a personal note, I was the recipient of his teaching on attention to detail and meticulous surgical skills when I was a medical student and resident scrubbing on c/sections and myomectomies and a recipient of his compassionate care as he helped deliver my oldest child.*

*In recognition of his unwavering dedication and service in his role at Bellevue Hospital and within the NYU department of obstetrics and gynecology, the distinguished service award is granted to Dr. Clarel Antoine!!*

*-Margaret Nachtigall, MD*
